

MENTOR® Volume
Sizing System

HELP HER MAKE A CONFIDENT CHOICE

 **MENTOR**®
PART OF THE *Johnson & Johnson* FAMILY OF COMPANIES

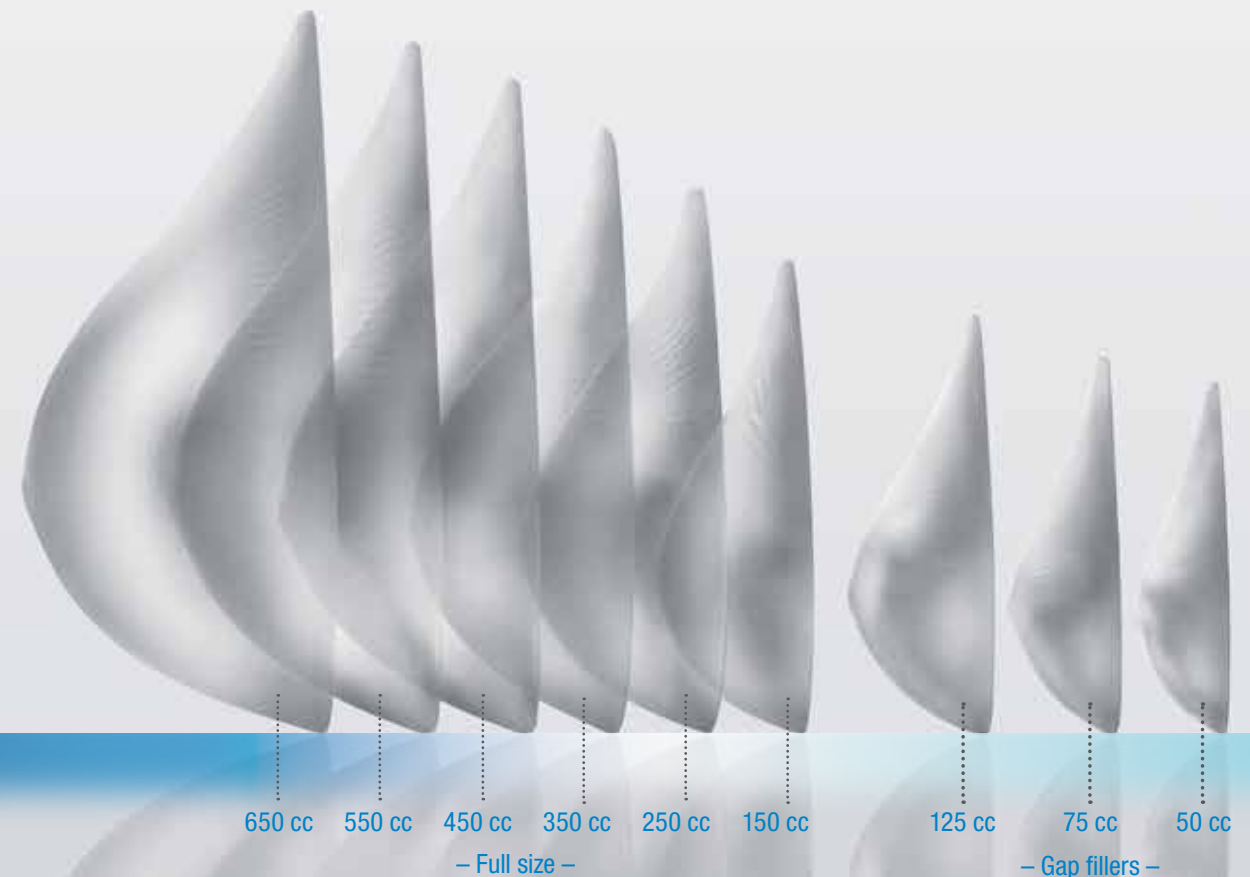

MENTOR® Volume Sizing System enables you to simulate 24 volumes.

- Includes a total of 18 volume sizing devices
- Provided in a high-quality clear, acrylic display case
- Display case dimensions: 21" (length) x 10" (width) x 10" (height)

Introducing the MENTOR® Volume Sizing System

- Features a unique shape that fits over her natural breast, creating a more realistic preview of her new size
- Helps your patient feel invested in her size decision, and satisfied with her result
- 82% of surgeons surveyed stated the Sizing System had a high impact on patient conversions¹
- Surveyed surgeons indicated the Sizing System could lower augmentation reoperation rates due to size change²
 - Patient request for size/shape change drove up to 33% of reoperations in augmentation patients, based on previous study results.³

Ordering replacement sizers

Over time you may need to reorder additional individual sizers. See below for catalog numbers specific to each sizer.

To order please contact your Mentor sales representative, visit www.MentorDirect.com, or call (800) 235-5731 today.

These tools are meant to assist you in selecting the right implant to achieve the patient's desired results. How you use these tools will depend upon your personal preferences and experience. The MENTOR® Volume Sizing System does not dictate a specific implant, but provides guidance in selecting a range of devices that will increase the likelihood of patient satisfaction. The MENTOR® Volume Sizing System is not intended to replace your independent professional judgment.
